34 Lake Street, Forster

Price: \$50

**Enquiries and bookings: classesandworkshops@forstergallery.org
or phone 0401 761 812**

Artist Short Biography

I am an artist, a figurative expressionist and a teacher. My passion for expression drives my work, as I believe that art has the power to communicate emotions, experiences, and stories in a unique and powerful way. Through my figurative art, I aim to evoke a visceral response and connect viewers to the raw beauty and essence of being alive.

I take great pleasure in being able to share my passion for the arts with like-minded individuals — I convey my passion and knowledge of the arts with others extremely well, fine tuning methods and techniques to unlock and enhance each individual's skill level. I hold a Bachelor of Fine Arts from National Arts School Sydney, and an Advanced Diploma from Newcastle Art School. I was also Winner of the John Olsen Prize for life drawing. I have had many years of experience in teaching art — I started at Sydney Art Space from 2016, currently I teach at Hudson Street Hum, Leda Gallery Newcastle, and Newcastle Art School (Hunter St).

Workshop information

Using a live model this masterclass will cover some essentials of life drawing. Suitable for beginner and intermediate drawers. The content of this masterclass may include:

- Foreshortening
- Hands and feet
- Contrast with Carravagio (not really good for anyone with poor sight/night sight)
- Measuring utilising negative space
- Basic anatomy for the artist

Attendees need to advise at least a week before the class what life drawing elements they would like to cover, so that course material can be prepared.
